Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Increase your energy capabilities with our compact and powerful 20ft Solar Energy Container construction. Designed to be strong and mobile, it offers 140kWh per day, thanks to its 60 m² solar ...

Good after sale service and provide free installation service.

This container can be run solely off batteries or you can just plug it in. Without the batteries it's self-sufficient with the sun up if you don't have it plugged in.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Process: Solar panels directly convert solar energy into DC, which is then converted to AC by the inverter for cold room use. Excess energy is stored in batteries, with grid power as backup to ensure ...

We have the knowledge and expertise to design and implement customized renewable energy solutions, including solar power generation, that are tailored to the unique needs of each client.

Introducing our 20FT Container Energy Storage System - engineered for unmatched efficiency and reliability. This robust 20-foot unit offers a substantial capacity of 500KW/1000KWH, making it an ...

Elevate your cold storage solutions with our fully customizable features. Whether you need a high-performance solar system, a robust trailer, a durable container, or a reliable generator power supply, ...

The 20ft Mobile Solar Container by HighJoule offers 80KW of solar power using high-efficiency 480W modules. With an industrial-grade build, it's an excellent choice for mid-sized, scalable off-grid or ...
