NUCALA is indicated for the treatment of adult and pediatric patients aged 12 years and older with hypereosinophilic syndrome (HES) for greater than or equal to 6 months without an identifiable non ...

Our team conducts a full-site technical evaluation to assess load demand, space, weather conditions, and energy consumption patterns. Based on the findings, we design, optimize, and present a ...

The new indication for Nucala is the first approval for HES patients in nearly 14 years.

GETON CONTAINERS specializes in large-scale photovoltaic power plants, custom folding solar containers, solar inverters, and energy storage systems for commercial, industrial, and utility ...

The container integrated system solution with one stop service. The energy storage system consists of a battery system, PCS cabinet, transformer cabinet, distribution cabinet, fire cabinet, air conditioning, ...

We conduct a thorough site evaluation, then deliver the fully equipped container to your location. Once connected to your energy source (solar, grid, or generator), we perform system checks and ...

What is NUCALA? NUCALA is a medication used to treat adults who have HES -- a condition in which people have too many eosinophils (a type of white blood cells) in the blood.

Nucala® (mepolizumab) 300 mg every four (4) weeks via subcutaneous injection for the treatment of adult and pediatric patients aged 12 years and older with hypereosinophilic syndrome (HES). ...

Modular design of structure and components, according to different configurations, flexible for a variety of industrial and commercial scenarios such as microgrid, light storage and charging integration. ...

That's the magic of a 20 kW photovoltaic energy storage system - it's like having a solar-powered piggy bank

for your electricity needs. These systems combine PV panels with battery storage, acting as ...

Click on a solar kit below to review parts list and options for battery storage, EV charging and installation. Featuring daily updates with the lowest prices on solar panels, SunWatts has a big ...

Energy storage systems (ESS) might all look the same in product photos, but there are many points of differentiation. What power, capacity, system smarts actually sit under those enclosures? And how ...

The study showed 50 percent fewer patients experienced a HES flare (worsening of symptoms or eosinophil threshold requiring an escalation in therapy) when treated with Nucala, compared to ...

Photovoltaic with battery energy storage systems in the single building and the energy sharing community are reviewed. Optimization methods, objectives and constraints are analyzed.

Are solar energy containers a viable energy solution? Solar energy containers offer a reliable and sustainable energy solution with numerous advantages. Despite initial cost considerations and power ...

Nucala is currently used as an add-on maintenance therapy for severe eosinophilic asthma and for the treatment of eosinophilic granulomatosis with polyangiitis (EGPA), and is being ...
