What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

How much energy does a containerized wastewater treatment plant use?

No planning or buildings are required to operate a containerized wastewater treatment plant - the plant simply needs to be placed on a solid base. This saves costs in advance, and the system is also highly efficient during operation: a 20-foot container only needs 13 kWh/d. Container.One, Container.One+, Container.Pro and Container.Xtra.

What is an intelligent containerised waste water treatment plant?

Intelligent containerised waste water treatment plants are ready to use immediately on delivery. A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary.

What is a containerised portable sewage treatment plant?

A containerised portable sewage treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable wastewater volumes to achieve any effluent quality.

Modular extension These mobile wastewater treatment plants feature a modular extension and set-up concept. This allows for maximum flexibility when it comes to designing your wastewater ...

Mobile Wastewater Treatment Plant Conventional activated sludge ...

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure. ...

60kW Mobile Energy Storage Container for Wastewater Treatment Plants Protocol

Sales of 60kWh Mobile Energy Storage Containers for Wastewater Treatment Plants What is a Biocell water containerised wastewater treatment plant? Biocell Water containerised wastewater treatment ...

TLS supplies intelligent mobile and containerised waste water treatment plant or sewage treatment plant container, which can be remotely controlled to monitor system condition and water ...

Mobile Wastewater Treatment Plant Conventional activated sludge processes have high space requirements and do not provide a high effluent quality. The BIO-CEL M+ was specifically ...

Orenco's AdvanTex technology has provided a reliable, energy-efficient alternative for wastewater treatment in some of the world's most remote places. The AdvanTex AX-Mobile is Orenco's most ...

Upon customer's request, treated wastewater level monitoring system (Fiedler) and WWTP failure messages by means of GSM port can be also provided. System flexibility - container ...

The KLARO containerized wastewater treatment plants not only impress with their quick plug-and-play installation, but also with their simple operation. The mobile plants are designed in such a way that ...

What is Containerized Wastewater Treatment Plant Containerized mobile wastewater treatment plant is the name given to the systems that work with the plug and play principle by ...

What is a containerized wastewater treatment plant? A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast ...
