This month, OE will open and dedicate its new Grid Storage Launchpad, a state-of-the-art \$75 million facility hosted at DOE's Pacific Northwest National Laboratory (PNNL).

According to the China Energy Storage Alliance (CNESA), CATL ranked No.1 globally in energy storage battery shipments in 2024.

Shanghai-based Envision Energy unveiled its newest large-scale energy storage system (ESS), which has an energy density of 541 kWh/m², making it currently the highest in the industry.

Building on nearly three decades of solar and storage expertise, Trina Storage delivers safe, reliable, and cost-effective systems that accelerate the clean energy transition.

Ola Electric has announced its entry into the energy storage space with the launch of Shakti, a battery energy storage system (BESS). "The biggest application of our giga factory will be ...

When Tesla unveiled its next-generation energy storage systems--Megapack 3 and the new Megablock--on September 15, 2025, it marked a pivotal moment in the evolution of utility-scale ...

A framework for the "development, utilisation and commercialisation of energy storage systems" in the Philippines has been passed by the House of Representatives.

From iron-air batteries to molten salt storage, a new wave of energy storage innovation is unlocking long-duration, low-cost resilience for tomorrow's grid. As the global energy transition ...

Summary: Discover the latest breakthroughs in global energy storage with 10 groundbreaking projects reshaping renewable integration, grid stability, and industrial efficiency.
