-----

French electric utility ENGIE SA has undertaken construction of a 200-MW/800-MWh battery energy storage system (BESS) at its Vilvoorde site on the outskirts of Brussels in Belgium.

The BESS project located at Engie's Vilvoorde gas power plant site, north of Brussels, was completed barely 16 months after the groundbreaking ceremony and two months ahead of ...

On July 5th, ENGIE commenced construction of one of Europe's largest Battery Energy Storage Systems (BESS) at its Vilvoorde site in Belgium. This achievement follows the project's ...

Utility and power generation firm Engie has started construction on a 100MW/400MWh BESS project in Belgium, for which it has enlisted system integrator NHOA Energy to provide the BESS.

ENGIE has officially completed both phases of its 200 MW battery energy storage system (BESS) at Vilvoorde, Belgium. The 800 MWh installation, composed of 320 lithium-ion battery ...

Engie has begun construction works on one of Europe's largest battery parks at its Vilvoorde site in Belgium. The battery energy storage system (BESS), with 200MW capacity, will store 800 megawatt ...

Auction in T-1 and T-4 up to 2024, plus T-2 as from 2025. Technology agnostic (derating factor). Volume fixed every year by Belgian Authorities based on TSO recommendation. Payback mechanism in case ...

With 531 MW of BESS capacity in operation and under construction in Europe as of June 2025, the Group has since announced the construction of two battery projects in Romania (85 MW / ...

Engie has officially launched its 200 MW / 800 MWh battery energy storage system (BESS) in Vilvoorde, Belgium, which is now fully operational. This landmark facility is the largest of its ...

NHOA Energy has been awarded by ENGIE a contract for the supply, commissioning and long-term service of an 80 MW/320 MWh battery energy storage system (BESS) at ENGIE's ...
