Who is astrasun solar Kft?

The ASTRASUN Solar Kft. (earlier as Candimpex Budapest Kft.) has opened consciously to the renewable energy market since 2014. The core elements of its activity today are the design, construction, operation and maintenance, investment and development of the solar power plant.

What happened to our project in Northern Hungary?

Our project in Northern Hungary came to a close at the end of August, in which two substations receive energy from a total of five solar power plants.

Who was responsible for the installation of a solar power plant?

As the main contractor, STS Service was responsible for the full implementation of the plant, with the exception of the procurement of major equipment - the transformer stations, inverters, solar panels, and the tracker mounting system - which were provided by SolServices.

How much energy does the Putnok substation collect?

The Putnok substation collects energy from 22 MW Putnok and 28 MW Serenyfalva solar power plants - the commissioning of which took place on 02-03.05.2024, as reported on our social media pages.

Hungary has a way of calling its residents and visitors to go "off-the-grid" and away from the conveniences of electrical infrastructure. An AIMS Power inverter makes it possible to bring those ...

Meta Description: Discover why Budapest-built solar inverters are transforming global renewable energy markets. Explore export trends, technical advantages, and how EK SOLAR delivers customized ...

STS Group is an EPC company based in Hungary, specialising in the design, development, commissioning, and operating of renewable energy based power plants, hybrid power plants, ...

The ASTRASUN Solar Kft. (earlier as Candimpex Budapest Kft.) has opened consciously to the renewable energy market since 2014. The core elements of its activity today are the design, ...

Budapest Telesolar container communication station Inverter Production Plant

The communication methods are URH radios, GPRS modems or fibre optic cables. MV switches are manufactured by Schneider Electric, ABB, Siemens, Novexia and other smaller companies. ...

The Solis 100K-5G-PRO inverter includes component and manufacturing upgrades that enable full compatibility with today's high power 182mm and 210mm PV modules, allowing greater ...

Kaposvár, Hungary, Dec. 10, 2020 /PRNewswire/ -- Sungrow, the global leading inverter solution supplier for renewables, announced that the Company supplied its medium-voltage inverter solutions ...

The container is split into two areas: the inverter compartment and the medium-voltage compartment containing the switch-gear and transformer. Furthermore AEG PS has developed two ...

The system consists of a 40-foot container with 28 flywheel storage units, electronics enclosure, 750 V DC-circuitry, cooling, and a vacuum system. Costs for grid inverter, energy ...
