Notable energy storage developments for the company during 2022 included the January approval of two large-scale solar-plus-storage projects totalling 600MW PV and 480MW battery energy storage ...

Announced earlier this week (8 December), AFC and Cabeolica have officially opened the Cabeolica Wind Farm and Battery Energy Storage System (BESS) project, which comprises an ...

Ryse Energy has provided reliable access to energy to a village of 700 people in Cape Verde, that were previously living without energy, helping to shift the energy balance.

The island state, Cabo Verde, also known as Cape Verde, relies heavily on imported thermal energy for its power supply and the energy-intensive process of desalination for clean water.

The second phase of the Cabeolica project -- a pioneer in integrating renewable energy and storage at scale in Cape Verde -- aims to replace costly fossil fuel-based thermal generation while ...

Wind independent power producer (IPP), Cabeolica, has obtained approval from the Ministry of Industry, Commerce and Energy of Cape Verde to expand their wind energy production capacity on the island ...

The energy storage photovoltaic power station near Moroni represents a critical step in Comoros' clean energy transition. By combining solar generation with smart storage, it addresses both energy ...

This increase, according to Prime Minister Ulisses Correia e Silva, will help achieve the government's goal of more than 50% of electricity production from renewable energy by 2030 and ...

Together, these efforts aim to eliminate Cabo Verde's dependence on fossil fuels by 2040. The project will ensure that all new storage capacity, especially the pumped storage system, will be fully ...
