Multiple system configurations are available for 24, 48, 125, and 250-volt DC systems. The innovative front access battery design allows for 100 or 150AH batteries to be installed. Each Power Cabinet ships fully ...

2 x 300 mm² DC +, 2 x 300 mm² DC - Auxiliary AC Supply: 3 x 400/480 Vac; 3 x 2.5 mm² Interlock Cables: 2 wire STP (shielded twisted pair) Distance: 60 m (197 ft) (test for longer distances pending) Communication: ...

Shanghai Infracwin Energy Co., Ltd. is China power distribution board manufacturers and electric power distribution enclosure factory, provide custom power distribution board.

Designed for IP66 (IP67 capable) and Mil-Std-810H Ambient Operating Temp. (TA): -45°C to 185°C / -40°C to 85°C.

It has the features of advanced technology, the accurate stable current and stable voltage, low ripple coefficient, small size, big power, stable performance, reliable.

The cabinets are cooled by a powerful air to air heat exchanger system with the ability to dissipate up to 1300W of heat. This uses temperature-controlled DC fans for lowest energy use and lowest possible noise.

Outposts racks use a centralized redundant power conversion unit and a DC distribution system in the backplane. This is handled with line mate connectors so IT personnel need to just snap the host or switch ...

Explore a wide range of powerful DC-DC cabinet solutions for complex applications and systems.

Comprehensive, configurable DC power systems for mission-critical applications. Available with DC power and batteries in a single cabinet or with batteries separate for larger systems.

DC power cabinets used at border outposts

The power cabinets not only house the DC power system, but also have 1 RU of room for ancillary network equipment. They can be paired with a separate battery enclosure in a variety of pole mount configurations.
