-----

Rapid urbanization has increased the demand for grey infrastructure and led to changes in land-use patterns and the destruction of the environment. This study aims to understand and ...

High unemployment rates demonstrate that the work force, however skilled, is not adapted to the demands of a modern economy. 35% of the youth of Tunis, aged between 18 and 24, are unemployed.

Thousands of members and supporters of Tunisia's powerful Tunisian General Labour Union (UGTT) protested in the capital on Thursday over what they called a decline in union rights ...

Inadequate infrastructure in interior regions concentrates FDI in the capital city of Tunis and its suburbs (48.8 percent), the northern coast (28.3 percent), the eastern coast (13.1 percent), and the northwest ...

We investigate the response of aggregate demand (AD) components and inflation to monetary policy (MP) shocks in the Tunisian context where studies on this issue are rare.

Building upon this foundation, the city is now seeking to actively integrate further risk-reduction measures into its comprehensive strategic plan. Tunis, like many other cities worldwide, confronts a ...

The Inventory Management & Demand Planning Course offered by Gentex Training Center is a comprehensive five-day program designed to equip participants with the tools and techniques ...
