Mobile solar containers enable total off-grid operation, providing power in locations with no utility grid or where grid access is unreliable. This is essential for rural development projects, ...

Our Solarator(TM) renewable generators are portable, reliable Battery Energy Storage Systems (BESS) that deliver continuous 24/7 power, 365 days a year, in any condition. As market leaders with years ...

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site. ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Battery Energy Storage Systems (BESS) are larger-scale energy storage solutions. They consist of interconnected battery modules, power conversion equipment, and control systems, all ...

As energy challenges grow, our solar container solution was created to meet the need. It provides clean, efficient power wherever you need it and can also generate profit. The container is ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery bank, ...

Our containerized energy solution offers notable economic and practical advantages:

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar

Energy company uses 30kW solar-powered container

containers for remote industrial sites in Canada & USA.
