As the demand for solar power increases due to climate change, the cheap nature of Chinese photovoltaic cells has resulted in China's solar exports growing massively in recent years in spite of ...

Professor Green is often called as "the Father of Photovoltaics". He thought he received such a reputation because he has been training many students who went on to have a big impact in ...

China installed a record 315 GW (AC) of new solar capacity in 2025, lifting cumulative installed PV capacity to 1.2 TW and pushing non-fossil power sources past thermal generation for the ...

When Shi Zhengrong started making solar panels at the turn of the century, there was basically no solar industry in China.

In order to sell the water heaters quickly, Huang Ming decided to popularize solar energy knowledge among the people. He founded the "Huangming Solar Energy Popular Science ...

Yehdor, a 48-year-old herder from Xaghelesi Village in Tiegai Township, leisurely rode his motorcycle, driving his flock of sheep into the solar photovoltaic power plant owned by Huanghe ...

China is rapidly transforming its energy landscape, with solar power at the forefront of this revolution. As the world's largest CO2 emitter, China's commitment to renewable energy is ...

1984: Yunnan Semiconductor Device Factory introduced a monocrystalline silicon solar cell production line with the world's advanced level from the American SPIRE company, becoming ...

To promote the adoption of distributed rooftop solar, the NEA launched the Whole County PV program, a national pilot scheme that aimed to install photovoltaics in roughly half of China's ...
