Honduras has made impressive strides: Lithium-ion batteries aren't just for smartphones anymore. The Cortes Region recently deployed Central America's first grid-scale battery storage ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

Our lithium-based energy storage systems are specifically built for hot, humid environments like Honduras. This article explores how we're tackling the unique climate challenges of Central America ...

Summary: Honduras is embracing modern energy storage batteries to support renewable energy integration and stabilize its power grid. This article explores lithium-ion solutions, solar battery ...

Summary: Honduras is embracing modern energy storage batteries to support renewable energy integration and stabilize its power grid. This article explores lithium-ion solutions, solar battery ...

San Pedro Sula, Honduras' industrial hub, faces frequent power outages and rising energy costs. A Generator Container BESS offers a hybrid solution: combining diesel generators with lithium-ion ...

Summary: Discover how Honduras' new battery energy storage plant addresses renewable energy challenges, enhances grid stability, and supports Central America's clean energy transition.

Engineered to complement solar folding containers, our lithium-ion battery systems deliver dependable power storage with fast charge/discharge capabilities. Their modular architecture makes them ideal ...
