-----

The government revoked an import tax subsidy on assembled solar panels, as the country manufactures similar products, the industry and trade ministry said in a statement.

Brazil's photovoltaic sector finds itself caught between two tectonic policy shifts since December 2024. The double whammy of China's export VAT rebate reduction and Brazil's import tariff hike has ...

The report of Brazil to restart import taxes on wind turbines & solar panels adds a layer of complexity to the evolving landscape of alternative energy in the country.

Direct tax incentives, such as the exemption of ICMS on solar energy in several states, and indirect incentives, such as the exemption of PIS/Cofins on generation equipment, have contributed to ...

This guide breaks down the key federal and state-level tax incentives available to solar module manufacturers in Brazil. Understanding these mechanisms--specifically IPI, PIS/COFINS, ...

In 2025, there were significant changes in the taxation of solar energy in Brazil, as established by Law No. 14.300 / 2022, known as the Legal Framework for Distributed Generation.

From 2024 to 2027, photovoltaic modules assembled in Brazil will be subject to a 10.8% taxes on imported solar panels.

Under the new tax framework, this burden tends to increase, especially for asset leasing operations (such as solar plant leasing contracts), with estimated rates reaching 10.6%--even after ...

Solar panels are used to capture sunlight to generate electricity, constituting one of the main renewable sources to produce clean energy. The intention of the benefit is to foster the local ...

# How much is the tax refund for photovoltaic panels in Brazil

Using Net Present Value (NPV) and Payback, we quantified economic incentives and impacts in each scenario. Results show that amount of money from incentives is strongly dependent ...
