The Huangpu Industrial Solar PV Program will implement up to 320 MW of solar power generation on industrial facility rooftops through the economic development zone.

The first phase of a 500-megawatt photovoltaic (PV) power generation project developed by Huangpu enterprise Hengyun in Haiyan town, Taishan, Guangdong, came into operation on Dec 28.

Huangpu A solar project is an operating solar farm in Guangdong, China.

This is Guangzhou's first large-scale photovoltaic manufacturing project. TCL Zhonghuan Renewable Energy Technology will invest 10.6 billion yuan into the Guangzhou Development Zone ...

Huangpu district administrative government has policy and financial support on the RE planning and RE development. GIEC carried out to produce the low-carbon development plan and the thirteen five ...

The project plans to establish a smart factory with 25GW of solar capacity and produce TOPCon batteries, whose energy conversion efficiency will take the lead in the industry.

Huangpu, located in Shanghai, China, offers a promising location for solar energy generation throughout the year. Situated in the Northern Sub Tropics, this area experiences varying levels of solar potential ...

In a bold move signaling a significant shift in China's construction landscape, Huangpu district in Guangzhou, Guangdong province, has kicked off an ambitious initiative with the launch of ...

Up to 28 new energy storage projects have been initiated and signed, including energy storage systems, lithium battery packs, and photovoltaic power generation.

The completion of the project at Huangpu Terminal will promote the fast and steady development of the port's green transportation industry, and help Sinotrans build a green port demonstration.
