During the event, two groundbreaking products were launched: the world's first direct cooling immersion energy storage system and a high-safety, large-capacity mobile energy storage ...

Immersive liquid cooling energy storage systems are one of the crucial technologies in the future energy storage field, with very promising prospects for wide-ranging applications.

Kortong another new product, "10MWh immersion liquid cold energy storage system", has also become one of the star products in the exhibition. The system adopts the leading ...

EticaAG is developing some of the first immersion-cooled BESS products specifically engineered for data centers, launching in 2026. The company already offers utility-level, industrial, ...

Sermatec Energy leads the field of new energy storage. As early as the beginning of this month, it took the lead in launching the 261 fully immersed liquid-cooled outdoor cabinet.

Fluence is a global market leader in energy storage products and services, and cloud-based software for renewables and storage assets.

By submerging battery cells in a non-conductive coolant, this system ensures exceptional safety and precise temperature control, maximizing the performance and lifespan for energy storage. This ...

Enter immersed energy storage battery systems - the tech world's answer to keeping power cells chill without breaking a sweat. By 2025, over 60% of new industrial energy projects in ...

Etica Battery, Inc., a global leader in advanced energy storage solutions, today announces the widespread commercial success of its Immersion Cooling Technology for Battery Energy Storage ...

Explore EnBrilion's portfolio of Battery Energy Storage Systems -- from compact EnFlow and EnAqua to

Immersed energy storage products

utility-scale EnVault. TÜV-certified, immersion and liquid-cooled BESS built for safety, efficiency and

...
