Durable waterproof sheet metal cabinets for lithium battery and solar storage systems. Customized design, weather protection, CNC cutouts, and fast delivery.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Ever wondered how Italy's iconic landscapes - from sun-drenched vineyards to Alpine villages - stay powered while embracing green energy? Meet the Italian outdoor energy storage ...

Constructed from galvanized or stainless steel and rated up to IP65, it ensures complete resistance to dust, rain, and corrosion while maintaining optimal operating conditions for all internal components.

Our "all in one" storage systems are developed and manufactured in Italy and use all high efficiency materials. The strict quality controls guarantee a long service life and a high reliability of the ...

With its scalable and anti-corrosion capabilities, AZE's battery system can meet project requirements of varying scale and is suitable for various environmental conditions, making it an ideal solution for grid ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

From home battery storage to commercial and industrial ESS solutions, our CEI 0-21 certified products help Italian customers reduce electricity costs, maximize solar self-consumption, and ensure reliable ...

This cabinet houses high-capacity lithium or LiFePO4 battery modules, BMS (Battery Management System), and optional inverters, all within a weatherproof and secure enclosure.
