M8 × 25mm hex socket cap bolts from SPC solar are made of stainless steel (A2-70). Inner hexagonal socket bolts are also called allen head bolts (screws) are metric coarse. Widely used for PV module ...

Complete Kit: 10 pieces solar panel middle clamp including fixing screws (M8*57mm) and groove nuts. Suitable for solar panels with a thickness of 40mm. The quantity is enough to cover your daily use ...

M8 Bolt with nut - Pack of 20 25mm Bolt with Flange Nut. Fits Planet 4 Solar (UISolar) rails. It comes with all the hardware shown in the picture (Bolt, nut, flat washer, locking washer)

Engineering-grade bolts engineered for rooftop and ground mount solar panel installations. Superior corrosion resistance and mechanical properties for reliable long-term performance.

Strong durability and corrosion resistance, Suitable for lightning proof and grounding applications of solar photovoltaic systems, Compatible with various aluminum photovoltaic guide rails ...

Ensure maximum reliability in your photovoltaic panel installation: choose our specialised screws and bolts, made of stainless and galvanised steel, tested with thousands of solar power systems in Italy ...

Premium Galvanized Bolts (M8-M16) for All-Climate PV Racks, Solar Mounts (ASTM A307 Standard)

Size and type: Select the appropriate screws and bolts according to the size and weight of the solar panel. Usually use M8 or M10 standard screws, but make sure to choose the specifications that meet ...

Learn how to select the proper solar hanger bolt size for pitched roofs. Expert tips on diameter, length, material, and installation for safe, leak-free PV mounting.

Stainless steel M8 solar nuts with serrated collar, this creates a strong mechanical link between brackets.

M8 bolts for photovoltaic bracket
