Our professional team knows a lot about many industries, and the solar power industry is one of them. We will help you design the perfect cabinet for your off-grid battery bank and more.

These cabinets are weatherproof and corrosion-resistant, making them suitable for applications such as solar farms, wind energy storage, and electric vehicle charging stations.

ETA Enclosures offers enclosures with features optimized for the energy industry, ensuring streamlined integration into renewable energy systems. These features include: Corrosion-resistant materials ...

We are a key manufacturer of PV storage cabinets, featuring strong in-house fabrication capabilities. Utilizing automated production lines and controlled environmental processes ensures consistent ...

Durable Construction: Constructed from high-grade materials like SGCC, SECC, or mild steel, and finished with a protective powder coating, our cabinets are designed to withstand environmental ...

To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements. This ensures that energy storage cabinets maintain excellent ...

Choosing the right chassis cabinet manufacturer is the hard truth. Of course. If you need to customize a large number of chassis and cabinets for photovoltaic energy storage, you can ...

We design and manufacturer each battery enclosure to meet the precise needs and requirements of YOUR project. Every Battery Enclosure is manufactured to spec, meeting size and weight load ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

Manufacturer of Corrosion-Resistant Photovoltaic Energy Storage Cabinets

SWA ENERGY outdoor cabinets are engineered for harsh environments and long-term outdoor operation. With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they ...
