Brazil's push to integrate energy storage into its power system is moving from pilot deployments toward industrial scale, with WEG confirming plans to build a dedicated battery energy ...

The new plant is expected to generate around 90 direct jobs, contributing to local economic development. Battery energy storage systems play a critical role in stabilizing power grids by storing ...

In Brazil's bustling economic hub, a groundbreaking energy revolution is taking shape. The Sao Paulo Photovoltaic Energy Storage Project stands as South America's most ambitious attempt to harness ...

But hold onto your caipirinhas--this South American giant is fast becoming a hotspot for new energy storage projects. With abundant sunlight, ambitious climate goals, and a hunger for grid stability, ...

The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar.

WEG announces the construction of a new manufacturing plant dedicated to the production of battery energy storage systems (BESS) in Itajaí, Santa Catarina. The facility will be the most ...

The Brazilian National Bank for Economic and Social Development (BNDES) has approved financing of R\$280 million (\$54 million) under the BNDES Mais Inovação program for WEG to ...

Energy storage It is a source of pride to be the pioneering company in large-scale energy storage in batteries within the Brazilian transmission system. We energized the country's first project in 2022 at ...

Grid connection queues in Brazil are offering new opportunities for energy storage and hybrid systems and opening new energy business models. Renewable energy companies are adding ...

New energy storage power plant project in Brazil

Brazil launches a 2026 energy storage auction to boost large-scale battery projects and define storage's role in its evolving power market.
