As the Sultanate of Oman's sole procurer of electricity and water desalination projects, Nama PWP plays a strategic role in ensuring the availability of production capacity at the lowest economic cost.

With a proposed Phase I capacity of 450-500 MW, the Al Kamil Solar IPP will contribute to expanding utility-scale solar in Oman and supporting the country's renewable portfolio target of 30% by ...

Muscat: Oman has signed a milestone agreement to develop its first large-scale solar power and battery storage facility, marking a decisive step in the Sultanate's renewable energy transition and long-term ...

Muscat - Nama Power and Water Procurement (PWP) signed an agreement on Monday with a consortium led by Masdar to develop Oman's first utility-scale solar and battery storage project with an ...

The project seeks to contribute up to an additional 4% of renewable energy to the national power grid and will avoid the emission of approximately 505,000 tons of CO2 per year.

A consortium including Abu Dhabi Future Energy Co. (Masdar), Al Khadra Partners, Korea Midland Power Co. and OQ Alternative Energy have been chosen to build a 500 MW solar project in Oman,...

A consortium led by Abu Dhabi-based renewables developer Masdar has been awarded the contract for the Ibri III solar independent power project in Oman.

Unlike traditional power plants that rely on fossil fuels, this project will harness renewable solar energy while pairing it with advanced battery storage systems. This combination ensures that power ...

A Masdar-led consortium has secured a 500 MW solar PV and 100 MWh battery storage project in Oman, enhancing grid stability and renewable integration.

Oman Energy Storage Wind and Solar Power Station

Nama Power and Water Procurement (PWP) has signed an agreement for the development of the Sultanate of Oman's first utility-scale solar and battery storage project with a consortium led by Abu ...
