Being light-weight, highly-efficient and low-cost, GoodWe residential grid-tied solar inverters are designed to be simple to install, operate, and maintain, so as to ensure a quick return on investment ...

The GoodWe ES Uniq GW12K-ES-C12 is a state-of-the-art single-phase hybrid inverter, specifically engineered for residential energy storage systems. Designed to support modern solar solutions, it ...

Efficient and reliable, the GoodWe 12KW Three-Phase Inverter from the SDT G3 Series is designed to optimize solar power generation for residential and small commercial setups.

The GOODWE 12KW GW12K-ET-20 is a high-performance single-phase inverter with a nominal power output of 12 kW, making it ideal for residential solar setups. It is designed to optimize the ...

With two integrated MPPTs on board, which allow the management of two strings of photovoltaic panels positioned in different roof orientations, they ensure good production efficiency. GOODWE 12kW is ...

Equipped with dual MPPTs (Maximum Power Point Trackers) and built-in WiFi, this 12kW inverter ensures optimal energy harvest and seamless monitoring of solar energy production. Its robust ...

It provides AC power of 12 kW, supports HV batteries 150-720 V, and offers charge/discharge current up to 40 A. Thanks to 3 independent MPPT (input current 16 A, MPPT range 120-850 V) it enables ...

With an impressive efficiency rating of up to 98,0%, this inverter is one of the most productive inverters available. This inverter is suitable for any project you want to tackle, with a number of 2 MPPT and 2 ...

The GoodWe ES Uniq Series 1-Phase Hybrid Inverter line is specifically designed for residential applications, offering cost-effective energy storage solutions with a capacity of 12kW.

Discover GoodWe solar inverters and energy solutions. Reliable hybrid and grid-tied technology built for

efficiency and long-term performance.
