-----

The polypropylene hollow sheet is an extruded plastic board with hollow structure, which is made of non-toxic eco-friendly polypropylene. It also can be called twin-wall plastic ...

Photovoltaic Silicon Chip Packaging Box Hollow Panel Construction Heat Insulation Buffer Secure Transit Solar Cell Modules

At the heart of the concluded South China International Corrugated Exhibition, part of the dynamic 2024 WEPACK event in Shenzhen, PinLong Precision clinched widespread acclaim for unveiling ...

Corrugated plastic sheet is the material of choice for today's screen printing industry. It is ideal for indoor and outdoor applications. It's tougher than corrugated fiberboard, lighter than extruded plastic sheet, and is ...

In order to avoid customers' worry about whether the hollow board they buy meets their own requirements in the process of purchasing hollow board, we now launch a free sample delivery ...

Generally, PV cells in a PV module may be crystalline, semi-crystalline, or amorphous and they are safely packaged in multiple protective layers including front cover, encapsulate, and back sheet.

The corrugated PP collapsible pallet box sleeve system adopts all-in-one design, when empty, sleeve packs are collapsed, the top lid, pallet base and sleeve are available as a set, providing an excellent empty container ...

Our plastic sheets, boxes, and formwork panels are built to last -- lightweight yet tough, water-resistant, and fully recyclable. Designed for repeated use in packaging, printing, and construction, they help reduce waste ...

Hollow plate product features: With non-toxic, tasteless, environmental pollution-free; Moisture-proof, corrosion-resistant; Light weight, tensile resistance, high strength performance.

## Photovoltaic hollow board box printing

From the production of the plates to printing and die-cutting, it achieves a complete closed-loop process, meeting the customers' requirements of "design - proofing - mass production".
