---

We use a modular splicing structure to produce 1700#1700mm extra-large pallets without mold cost. This format accommodates full-size solar panels up to 1722mm with no overhang or wasted space. ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

PVpallet solar panel pallets are designed specifically for solar modules--not adapted from generic pallet designs. Unlike traditional wood pallets and single-use packaging, PVpallet pallets provide consistent ...

Discover how collaboration led to the creation of the solar industry's first reusable, collapsible pallet solution, reducing waste and panel damage.

Let's face it - nobody gets excited about disposable wooden pallets for photovoltaic support until a 500W solar panel cracks during transport. Suddenly, that humble platform becomes the star player in ...

You know, that final step before shipping? Well, that's where photovoltaic support palletizers come in clutch. These automated systems sort of act like robotic Tetris masters, stacking ...

PVpallet builds reusable, purpose-built packaging for solar modules, trackers, and BOS components. Our solar module pallets and collapsible bulk bins are engineered for real jobsite ...

The first recyclable, reusable, adjustable, and collapsible pallet system designed specifically for shipping and protecting solar PV modules is ready for testing with key clients.

This innovative pallet is the first of its kind, boasting adjustable, collapsible, and reusable features. Aptly named for its expandable design, PVpallet Series X effortlessly adapts to accommodate various solar ...
