Send an HTTP request to SharePoint action in Power automate flows works with SharePoint REST APIs. Follow below Microsoft official documentations for SharePoint REST API ...

Extract Value from Array in Power Automate Asked 1 year, 3 months ago Modified 10 months ago Viewed 7k times

You are confusing Power Automate with Power Automate Desktop. The link you provide is for Power Automate, so those functions won't work in the PADesktop. There is an action named ...

when opening my report user-confusion may arise from the fact that a date slicer is not automatically extended to the current date of data available. My question therefore is: Does anyone ...

Is this just part of the building process? Or If I have one query A that loads across the network and 5 follow up queries that refer to query A will power query / excel be reading the across ...

Create HTML table from array of Objects in Power Automate Asked 1 year, 3 months ago Modified 1 year, 3 months ago Viewed 7k times

I signed out and in multiple times in &quot;power automate&quot;. I also opened the &quot;sharepoint app&quot; in Office365 (whatever you're supposed to do with it) which worked fine. The sharepoint connector in ...

The goal is to get an Outlook email with it's Message-Id from Power Automate. I get an email's Message-ID from my personal Outlook Web mailbox: Next, I create a Power Automate flow to get ...

I am writing a Power automate to copy emails from an Outlook mailbox to SharePoint. I am using Get emails (V3) and want to retrieve emails received on a particular date.

# Power distribution solar dc energy storage cabinet price

I use Power Automate to collect responses from a Form and send emails based on the responses. The main objective is to automate decision-making using Python to approve or reject the ...
