Going solar helps you reduce your footprint while providing more predictable costs. Traditional utilities provide energy by burning finite fossil fuels. Solar energy is renewable, meaning that we'll have energy as long as the ...

In our Vivint Solar Review, we will show you what to expect from the Vivint solar system, where you can get one, and how to take advantage of all tax credit options available to Vivint customers.

Vivint Solar was an American provider of photovoltaic solar energy generation systems, primarily for residential customers. The company was established in 2011 as an offshoot of home automation and security company Vivint and was headquartered in Lehi, Utah. The company primarily used a power purchase agreement (PPA) business model where Vivint Solar installed and maintained a solar system on a customer's h...

Explore the intricate story of Vivint Solar, once a top installer, as it eventually merged with Sunrun, and uncover whether clients were satisfied with the company.

A leading provider of simple and affordable residential solar power solutions. We're flipping the switch on how the world creates and consumes energy by connecting people to the power of the sun.

The steps in the process of going solar with Vivint are similar to what you would expect with any other provider, but there are a few areas where Vivint's process and timelines vary.

Interested in going solar? Read about Vivint Solar's system costs, panels, installation and warranties -- and read verified customer reviews.

Pricing: Comparing Vivint's pricing to local solar companies is essential. While national companies like Vivint may offer competitive rates, it's beneficial to gather quotes from local installers too.

Pristina vivint solar

Get an industry-leading, 25-year production guarantee* when you go solar with Vivint. Generate your own clean energy instead of relying on traditional power companies. Power your home with solar from Vivint and save ...

Vivint offered panel installation and other solar services in 24 states, predominantly in the southwest (California, Arizona, Texas) and northeast (Virginia up to New Hampshire), though the company ...
