Who is solar power & battery storage?

An Australian-owned business consisting of specialist renewable electrical engineers who are part of a small group of experts offering solar power and battery storage solutions in Sydney and across Australia; we are trained and experienced in solar, wind and hydro engineering.

Why should you use solar power in Sydney?

In Sydney, solar power is helping thousands of families to reduce their energy bills and to have a cleaner and healthier lifestyle. Saving the environment is vital to our children's future and at Soltek Energy we are dedicated to providing you with the best solar solutions and the best advice in Australia.

Why should you invest in energy storage in Australia?

They store solar and wind power for use during peak demand or outages, supporting grid resilience, lowering costs, and accelerating the transition to clean energy. Australia's energy storage market is experiencing strong growth due to rising electricity prices, rapid solar adoption, and increasing demand for reliable backup power.

How can solar power help Australian families & businesses?

Working with Australian families & businesses to harness the power of renewable energy in Sydney. In Sydney, solar power is helping thousands of families to reduce their energy bills and to have a cleaner and healthier lifestyle.
