S5! S5! PROTEABRACKET SKU: 1658034 S-5! ProteaBracket Mount A versatile bracket for mounting solar PV to trapezoidal roof profiles. Wit

At S-5!, we offer metal roof attachments for mounting these related solar PV components on both standing seam and exposed-fastened metal roofing.

Choose the right solar panel brackets for roof, understand mounting options, and secure your panels to withstand the elements.

PVKIT#174; Rail-Less System: a lightweight, cost-saving solution for metal roofs to cut install time in half. Pair with S-5! clamps & brackets.

Unlike traditional methods that involve drilling holes and potentially causing damage to the roof, Solar Stack utilizes a spray polyurethane foam adhesive to securely bond the mounts to the roof surface.

Our solar brackets includes statically-optimised profiles and pre-assembled components. light and strong aluminium alloy ENAW 6063, lightweight and stress-resistant

Scott Bader's Crestabond M7 series of structural adhesives are recommended for bonding the aluminium rails or brackets to roof structures for mounting glass faced solar panels.

A guide for choosing, installing, and flashing roof anchoring systems for solar panels.

Solar Panel Mounting Rails are a metal rail that protect solar panels against buckling while safely and efficiently transferring loads from the ground up into the structure.

Learn how to safely mount solar panels to your roof with our step-by-step guide. Covers all roof types, tools needed, safety tips, and when to hire professionals.
