Sungrow 7.8 GWh Saudi Arabia ESS Project 7.8 GWh Saudi Arabia ESS Project Officially Connected to the Grid 2025-12-17

The Kingdom of Saudi Arabia has officially completed grid connection of its energy storage system (ESS) project with a nameplate capacity of 7.8 GWh. Once fully energized, it will become one of the ...

The systems are designed for quick and efficient deployment, with pre-installation and pre-adjustment done before leaving the factory, facilitating immediate grid connection upon arrival.

In parallel, Saudi Arabia has 30 GWh of battery energy storage capacity under development, with 8 GWh already grid-connected, including the massive 2 GWh Bisha BESS, which came online in January.

This streamlined configuration significantly reduces onsite installation time. Additionally, Sungrow has deployed a dedicated local service team of professionals based in Saudi Arabia to support ...

HEFEI, China, Dec. 18, 2025 /PRNewswire/ -- The Kingdom of Saudi Arabia has officially completed grid connection of its landmark energy storage system (ESS) project with the nameplate capacity of 7.8GWh. ...

The Kingdom of Saudi Arabia has successfully completed the grid connection of its landmark 7.8 GWh energy storage system (ESS), setting a new global benchmark in battery energy storage capacity. On...
