The hat is made from a durable, water-resistant material and houses efficient solar cells capable of generating 12 watts of power. It's lightweight, too, weighing in at just 370 grams (13 oz).

With a lightweight structure, solar + USB dual charging, and a breathable crown design, this solar powered fan hat is perfect for daily commuting, cycling, and casual outdoor outings -- a favorite ...

After 3 weeks of head-to-head testing, here are the 5 solar fan hats we'd actually buy for ourselves -- or recommend to a friend who hates sweating through summer.

How We Selected and Tested To pick the best solar generators, we tested some of these power stations for charging capacity, ease of use, weight, and different use cases.

360-degree Coverage, Solar Charging On The Go: The EcoFlow Power Hat charges a mobile phone fully in as fast as 3-4 hours. With both USB-A and USB-C ports, charge two devices at ...

Stay powered outdoors with EcoFlow Solar Power Hat featuring foldable sun hat with integrated solar panels USB charging and UPF 50 protection for adventurers.

The concept is clever: eight solar panels built into the hat feed power to two USB ports (one USB-A, one USB-C) housed in a small box beneath the back rim, complete with a tiny LED ...

The Power Hat, a brand-new product from EcoFlow, is a lightweight and durable hat with solar cells integrated into its brim for 360° of solar coverage, with both USB-A and USB-C output...

EcoFlow Power Hat will not only cover your head on a hot day from the rays of the sun, but also charge up to two mobile gadgets at the same time - for this purpose, small segmented solar ...

The EcoFlow PowerHat is a sun hat made to harness the power of the sun while you're hiking in the

Solar hat power generation

mountains -- but does it look too silly?
