What are Albania's new solar projects?

These solar projects are expected to add 240 MW of capacity, significantly enhancing the country's renewable energy portfolio. The French renewable energy company Voltalia has announced plans to build new energy projects in Albania, including the Karavasta and Spitala solar parks.

How much does a solar power plant cost in Albania?

In April 2025, Albania's Ministry of Energy and Infrastructure unveiled plans to construct a 3.3 MW solar power plant on 5.2 hectares of land in Korçë. The project, estimated to cost around 2.7 million euros, is set to be completed in 12 months. The Korçë solar plant is part of a broader strategy to boost Albania's renewable energy capacity.

Does Albania have solar power?

Albania is making significant strides in renewable energy, particularly through solar power projects. Here's a closer look at some of the major solar panel projects and developments in the country as of 2025.

Where is Albania's second largest photovoltaic plant?

The company laid the cornerstone late last year for the 100 MW solar power system in the west of Albania. The site is near the port city of Durrës. One other PV plant is planned for expansion to 100 MW. Now another project of the same size is racing for the position of the country's second-largest photovoltaic facility.

Vega Solar is a prominent renewable energy company in Tirana, Albania, specializing in the manufacture and installation of certified solar systems. They offer a wide range of solar energy ...

French renewable power producer Voltalia SA (EPA:VL TSA) has started construction of a 100-MW solar farm in Albania, the company said on Monday. The Karavasta solar park in Albania. ...

The development of these solar power plants is expected to contribute significantly to Albania's energy security and economic growth. By reducing the country's dependence on imported ...

Four applications were submitted in Albania for solar power projects with a combined capacity of 235 MW.

Albania embraces solar power with the Karavasta power station - 234,828 new solar panels generating 140

# Solar power station for sale in Albania

megawatts to power homes and protect local species. 53 families will be ...

Voltalia has launched the construction of the Spitalla photovoltaic power plant, a 100-megawatt facility located in Albania's Durrës region near the Adriatic coast, just 50 kilometers from ...

On May 6, 2025, the Albanian government approved the development of two new solar power plants, totaling 54 megawatts (MW) in capacity. The projects comprise a 30 MW installation and a 24 MW ...

To date, Voltalia operates Karavasta, the largest solar park in Albania with a capacity of 140 MW. This project provides approximately 3.2% of the country's total electricity consumption, ...

The development aligns with Albania's National Renewable Energy Action Plan, which targets 640MW of non-hydro capacity by 2030, including 490MW from solar. As part of the initiative, ...

The Karavasta solar power plant will take over the title from Novaci in North Macedonia, which has just been commissioned. France-based utility Voltalia said Minister of External Trade ...
