Which solar panel is best?

Maxeon Solar Technologies Maxeon's 440-watt solar panel is our pick for best overall. It's the most efficient panel at 22.8% and comes with the longest warranty (40-year performance and product warranties--15 years longer than the industry standard). Maxeon is the highest-rated solar panel on the EnergySage Marketplace.

What is a good solar panel efficiency?

Efficiency is how much energy a solar panel can convert from the sun into usable energy for your home. The higher the efficiency, the better the panel, which is why solar panels with an efficiency of 22% or more score the best in this category.

Which solar panels are best for 2025?

Let's take a look at each of the brands: Canadian Solar is our #1 pick for 2025. The company has been manufacturing solar panels since 2001, making it one of the oldest brands on our list. Canadian Solar's products are known for their reliability and affordability and are used by solar installers nationwide.

How are solar panels ranked?

To rank our solar panels, we primarily looked at power output per square foot. This metric is the best way to directly compare solar panels side-by-side since they can vary so much in size. Solar panels are like most other electronic equipment: They operate most efficiently in cool temperatures (ideally around 25°C or 77°F).

Are you searching for the best solar panels for home use? Here are our seven high-quality picks to help you complete your home solar system.
