1000 kW-1600 kW double conversion UPS offers superior power protection for critical UL applications, with options for 415V or 480V 3 phase input at 60 Hz configurations.

Eaton has a variety of industry leading three-phase UPS solutions that deliver efficiency and scalable battery runtimes while offering a smaller footprint and lower total cost of ownership.

The UPS 6000D-3 series makes use of new fifth-generation IGBTs that have lower loss and improved high-frequency switching characteristics compared with conventional IGBTs *1, which enables higher ...

Highly efficient 20 to 150 kW (480 V), 10 to 150 kW (400 V), and 10 to 75 kW (208 V) 3-phase UPS for edge, small, and medium data centers and other business-critical applications. Increased availability. ...

Riello UPS power supply solutions, producing high-grade, low-impact UPS power delivery units. Delivering uninterrupted and unbreachable power to work and...

Three-phase UPS systems are essential for data centers and other critical power applications that require high levels of reliability and efficiency. They are designed to provide clean and stable power ...

Data Center and Facility 3-Phase UPS High performance 3-Phase power protection for any size data center and other critical applications.

3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers, mission ...

Whether you need to power large equipment or distribute power across long distances, a three phase power supply system from Mitsubishi Electric delivers the ideal backup power for your applications. ...

Three-phase high-power uninterruptible power supply

Three-phase uninterruptible power supply systems use three separate phases with alternating currents to deliver consistent, stable power to critical loads. The currents are 120 degrees out of phase with ...
