unless i'm mistaken, if you turn off base station, you'll use more battery power because the cams will continuously try to contact the base station without success.

Learn how to easily disable HTC Vive base stations and conserve power when not in use. Follow these simple steps to turn off your stations and extend their lifespan.

When I wanted to turn it off I used to plug in my headset and then close down SteamVR but I was looking for a fix and came across an app on Andriod called "Lighthouse power management" and it's ...

On the back of the base, below where the power connects, you'll see a large removable panel, with one Phillips screw holding it in place. Remove the cover, and take out the battery (it's just like any of the ...

The base radio (s) at home are on 24/7, except for occasional PM and reprogramming, with the volume turned down at night. When I'm away from home in the mountains, I'll leave the ...

By leaving base stations plugged in, you're essentially putting your device's battery through unnecessary stress, which can reduce its overall lifespan. Some people believe that leaving ...

I know this is jumping up a bit in complexity but starting off with good power is essential. Ham Radio Crash Course just posted recently a video about setting up a ham shack and had some good tips ...

If you need the base station to completely shut down, please unplug the power cord of the base station. Reminder: It is not recommended to power off during daily use.

Is unplugging them from the wall or pulling the power cable out of the unit the only way to do that? It's a machine with moving parts, so yes, you definitely want to power them down when not ...

Turn off the power of the mobile base station

Turn off nearby devices using the same frequencies as the D-RTK Base Station (e.g. radio transceivers). Ensure that the antennas of all the devices used are unobstructed when in use. Only ...
