Can battery energy storage systems stabilize Vietnam's grid?

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and accelerate the energy transition.

How can government support energy storage in Vietnam?

Government support through policy reformations, training and upskilling programs, well-planned roadmaps, awareness campaigns, and other initiatives can further attract private investment and international support.

Emulating Vietnam's Strategic Approach to Energy Storage

How is Vietnam advancing its energy infrastructure towards an energy-resilient future?

Vietnam is advancing its energy infrastructure towards a greener, more just, and energy-efficient future, simultaneously providing a valuable model inspiring the global drive towards an energy-resilient future.

What is EVN's 50 MW battery energy storage system?

Sunita Dubey, Vietnam Lead, GEAPP and Hyunjung Lee, Senior Energy Economist, Asian Development Bank EVN's 50 MW Battery Energy Storage Systems (BESS) pilot project, in collaboration with ADB and GEAPP, aims for 300 MW by 2030. Vietnam is the fastest-growing energy market in Asia, according to the International Trade Administration.

One of the key highlights of Vietnam's revised Power Development Plan VIII (PDP8) is the significant increase in the targets for Battery Energy Storage Systems (BESS).

Hanoi, June 26, 2025 - Amid a strong energy transition and Viet Nam's efforts to fulfill its commitments toward achieving net-zero emissions by 2050, the research and deployment of Battery Energy ...

Vietnam is one of the first three countries selected for a pilot program under a new partnership initiative between the Asian Development Bank (ADB) and the Global Energy Alliance for ...

Viet Nam plans to develop large-scale energy storage systems as part of its strategy to stabilise its fast-growing renewable power grid and meet its net-zero emissions target by 2050, ...

Vietnam's battery energy storage market is gaining momentum, driven by a combination of rising electricity

Vietnam New Energy Storage

demand, increasing renewable energy penetration, regional supply-demand ...

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and accelerate the energy transition.

Vietnam is accelerating efforts to develop a large-scale battery storage market, aiming to strengthen its renewable energy transition. On September 12, Hanoi hosted a regional roundtable on ...

The BESS system at the PECC2 Innovation Hub was the largest BESS system in Vietnam at the time it began operation in 2021, reflecting PECC2's pioneering vision and role in ...

The Ministry of Industry and Trade is actively researching policies to incorporate energy storage batteries into Vietnam's energy landscape. As the country strives to enhance its renewable ...

Climate and energy transition consultant Sunita Dubey on work done to put Vietnam on the global energy storage map and the pathway forward.
