Prime Minister Brigadier (Ret"d) Mark Phillips on Saturday commissioned Guyana's largest hybrid solar-plus-storage power facility to date, a US\$10.4 million 5-megawatt solar photovoltaic (PV) farm at ...

In a decisive move towards sustainable development, the Government of Guyana has launched a state-of-the-art solar farm on Wakenaam Island, Region Three--an initiative poised to redefine its energy ...

Under the Guyana Utility Scale Solar Photovoltaic Program (GUYSOL), 8 Solar Farms are being constructed across Regions 2, 5, 6, and 10 for 33MWp. The Program is administered by the Inter ...

By June 2025, the construction of solar projects in Berbice and Essequibo are well advanced, while the third solar farm at the Linden site was just getting underway since contract signing in May 2025.

The main electric utility, Guyana Power and Light Inc. (GPL) is preparing plans for 3 utility scale solar PV farms totaling 30 MW for the national grid in the long term, as well as 0.75 MW Solar PV Farm at Wakenaam and ...

Guyana is set to significantly boost its renewable energy capacity by commissioning eight large-scale solar farms in 2025. This initiative is part of the government's broader strategy to ...

Speaking at the commissioning ceremony held at the Onderneeming Solar Farm Phase 2 site, Prime Minister Brigadier (Ret"d) Mark Phillips described the initiative as a milestone achievement in the ...

The government of Guyana has unveiled plans for three utility-scale solar parks in region ten of the country with a cumulative capacity of 15 MW.

In a significant step towards advancing solar power in Guyana, an 8-megawatt solar PV farm - the largest of its kind - will be constructed in the mining town of Linden in Region 10 (Upper ...

What are the photovoltaic sites in Guyana

Prime Minister Mark Phillips, along with regional officials and representatives from the Guyana Utility Scale Solar Photovoltaic Programme (GUYSOL), today turned the sod for the ...
