---

While being a major oil producing country, the United Arab Emirates (UAE) has taken steps to introduce solar power on a large scale. However, solar power still accounts for a small share of energy production in the country. The country was the 6th top carbon dioxide emitter per capita in the world in 2009, with 40.31 tonnes, but is planning to generate half of its electrical energy by 2050 from solar and nuclear sources, targetin...

With an excellent reputation amongst solar companies in Dubai, UAE, we specialize in developing a range of cutting-edge solar technologies that cater to the unique needs of clients in the GCC region.

Sun and Energy Solar stands out as the top solar company in the UAE. They are known for their high-quality solar panels, expert installations, and great customer service. Their team helps clients from start ...
