Fujian witnessed eleven 16 MW wind turbines, the largest capacity for a single wind turbine in the world, go into operation in the Pingtan offshore wind farm in 2023.

It is planned in East China Sea, Shanghai, China. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the partially active stage. ...

To access additional data, including an interactive map of global wind farms, a downloadable dataset, and summary data, please visit the Global Wind Power Tracker on the Global Energy Monitor website.

This is a list of the largest onshore wind farms that are currently operational, rated by generating capacity. Also listed are onshore wind farms with notability other than size, and largest proposed projects.

This is a list of the onshore wind farms that are larger than 250 MW in current nameplate capacity. Many of these wind farms have been built in stages, and construction of a further stage may be continuing ...

China has commenced construction on several large-scale wind- and solar-powered bases in deserts in recent years. Located mainly in northwest China, they have a combined capacity ...

To install these large turbines on site, we'll need a sufficient amount of land near the facility. Wind for Industry projects typically require an 800-foot square area (1.5 acres) of land per turbine that is free ...

Explore the top 13 largest wind farms in the world by capacity, with key facts, stats, and global clean energy insights.

Map of wind farm power plants in the US, Europe, Asia, Africa & Australia. Search and share locations.

We've looked into the largest of these wind farms, including the recently-announced offshore wind farm that will be built off the coast of Scotland. In this guide, we'll cover how many ...

Where to build large wind power plants

10 Steps in Building a Wind Farm 1. Understand Your Wind Resource The most important factor to consider in the construction of a wind energy facility is the site's wind resource. A site must have a ...
